Create a Security Group in Intune and add Members

Learn how to create a new security group in Microsoft Intune and add members to it. This guide walks you through the essential steps to manage your Intune groups effectively.

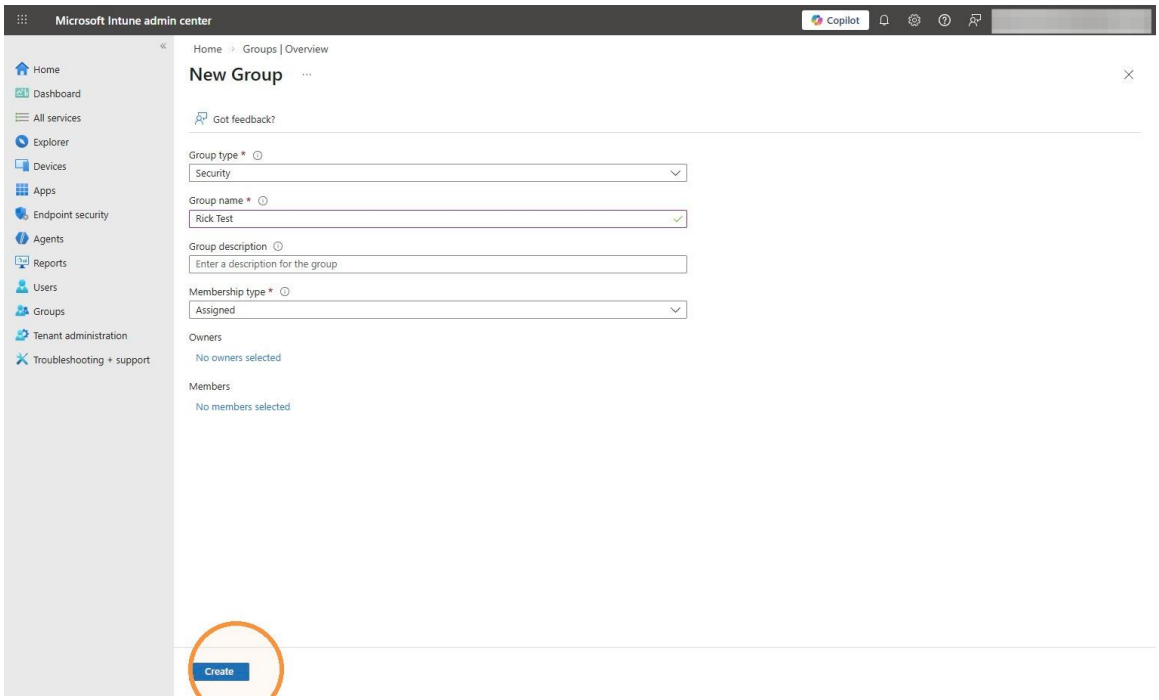

1. Click "Groups"

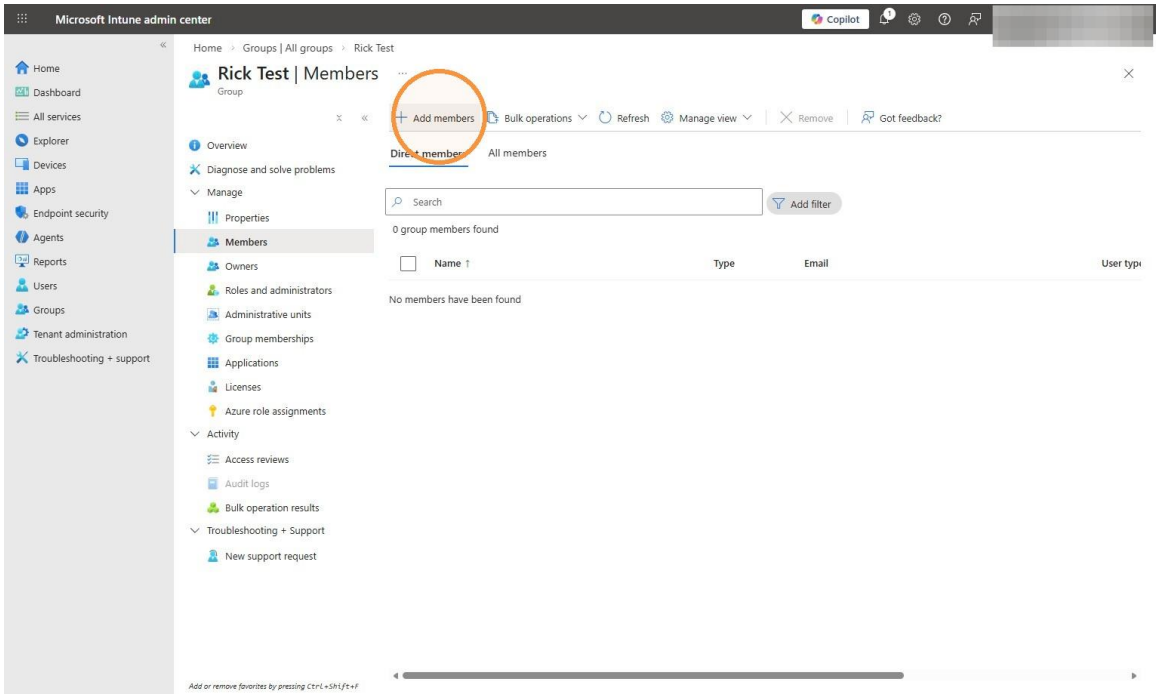

2. Click "New group"

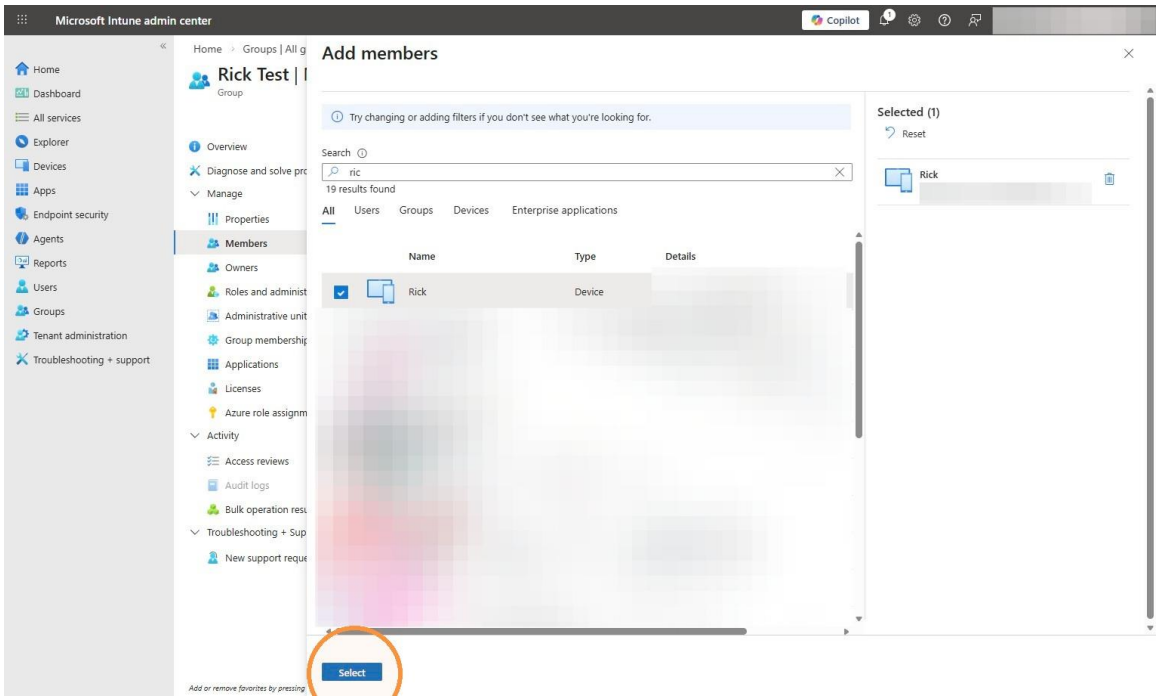

3. Enter a group name and Click "Create"

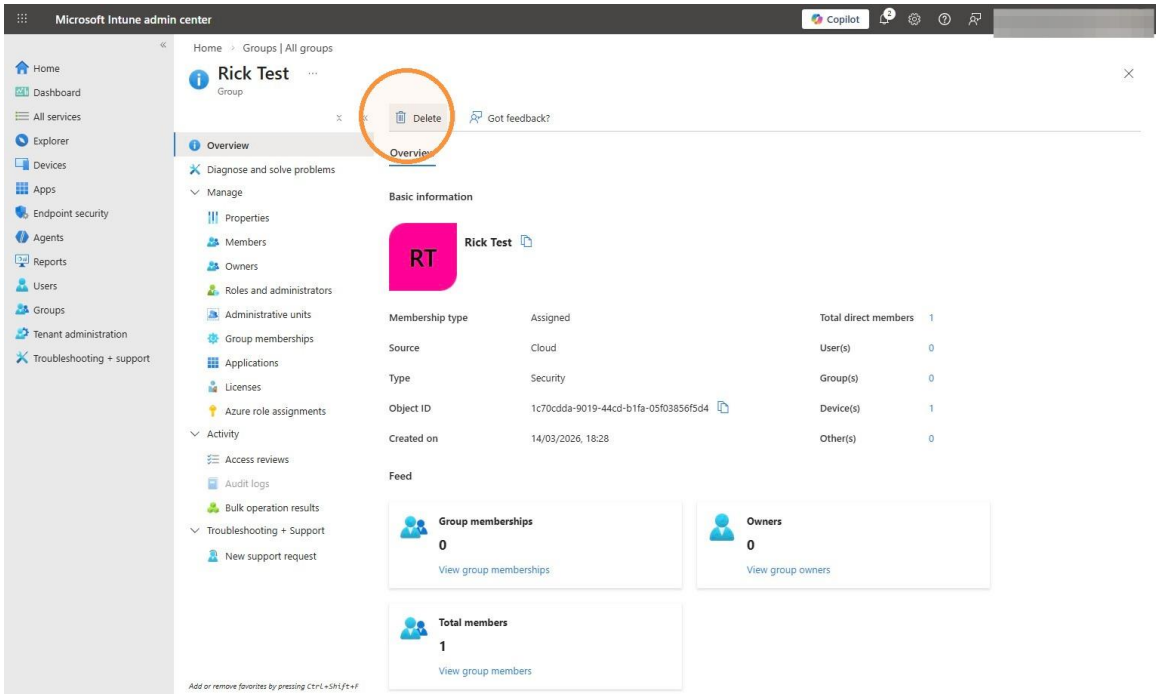

4. From the overview menu, Click on "Members" followed by "Add members"

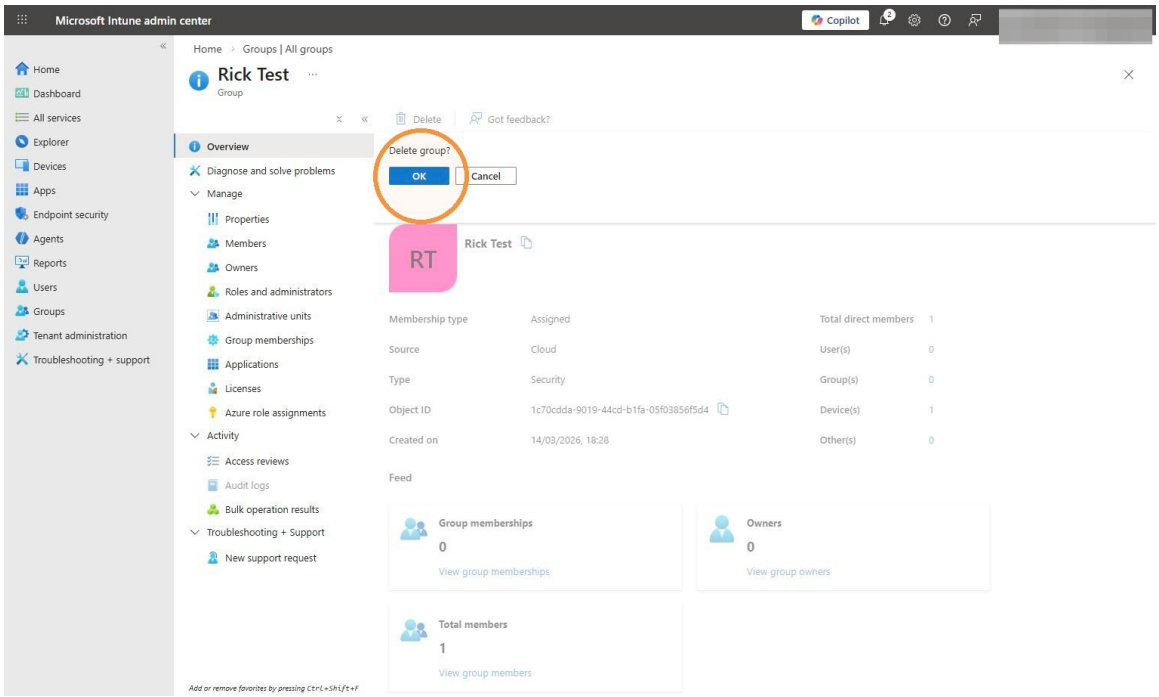

5. Search and select the members You would like to add and Click "Select"

6. Click "Delete" from the Overview to delete the group.

7. Click "OK"
